To Whom It May Concern,

This weekend marks the first anniversary of our Mother's diagnosis with terminal lung cancer. Nothing could have prepared us for the amount of uncertainty, pain, and difficult decisions that would lie ahead in the last few weeks we had with our Mom. Of the decisions that we made in that hectic time, the best decision we made was to contact Coprice Jones and Serenity Care services.

Coprice and her staff were consistently punctual, patient, knowledgeable and caring. It wasn't until Coprice and her team began to work overnights that we could leave our Mother overnight knowing that she was in safe hands. As our Mother's illness progressed, Coprice offered more of herself and her knowledge to help us as things got more difficult. She became like a daughter to our mother, often staying up late to console her. She had the demeanor and courage to be open and honest with us as things got closer. When our Mother passed Coprice was there, she sang at our Mother's funeral, and remains family to us to this day.

We cannot express how sympathetic we are to you and the decisions you have to make if you are reading this right now. There are no right answers or easy choices as you or a loved one enters hospice. However, we strongly recommend Coprice and her Serenity staff for all that they did for us and our Mother at the end of her beautiful life.

Sincerely,

Rob and Kyle Gordon
