To whom it may concern,

It is with total confidence and assurance that I provide this Letter of Recommendation for Coprice Jones and Serenity Care. I have had the opportunity to observe Coprice caring for two persons whom I held dear over the past 2 years.

Coprice is a smart, knowledgeable, exemplary caregiver with extensive experience in end of life patient care. Her kindness, fortitude and actual love for her work, sets her far above other caregivers. She touches the hearts of those in her care and they feel immediately secure. Coprice has deep emotion for her patients and treats them with dignity and respect at a time in their lives when others may think it to be an unattainable goal. She goes beyond just healthcare, and becomes emotionally committed. That strong emotion and her dedication, guide her through every moment of caring for others.

Further, her medical knowledge allows her to confidently and professionally provide health information and medical suggestions, while keeping the family close and well informed every step of the way.

I truly believe Coprice's care for others is unsurpassed and I remain forever grateful to her for the tremendous comfort she provided those I loved at the end of their lives.
